AS RAPARIGAS DO CÓDIGO

KICK-OFF
October 30, 2021

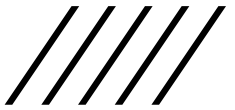

INTRODUCTION TO PYTHON PROGRAMMING
2ND EDITION

import intro_python()

- Introduction to Programming with Python (2nd Edition)
- 7 weeks, October 30th to December 11th
- Saturdays: 10h-12h (2h sessions)
- Workshops via Zoom
- Study sessions: 2nd, 4th and 6th weeks (via Discord)

import intro_python()

- Theoretical-practical classes (with live coding)
- Jupyter Notebooks (Google Colab)
- No prerequisites
- Exercises available for every class

import intro_python()

- Reference books
  - EN: How to Think Like a Computer Scientist — Learning with Python 3 (FREE! ☺)
  - PT: Programação em Python (not free ☹)
- We will also supply theoretical materials
  - Everything in PT ☺

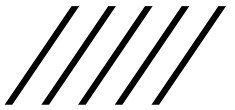

import intro_python()

Semana	Tópicos	Equipa	Data
0	Sessão de abertura. Introdução ao curso. Formato e modo de funcionamento. Hello World. Preparação do ambiente para acompanhamento das aulas em live coding.	Ricardo Pereira + Mentores	30 Out
1	Interação básica com o utilizador (print + input). Tipos de dados simples. Variáveis. Expressões e operadores.	Ricardo Pereira	6 Nov
2	Fluxo de um programa. Instruções de controlo: condições (if).	Joana Lopes + Rita Pereira	13 Nov
3	Instruções de controlo: ciclos (for + while).	José Amorim + Joana Lopes	20 Nov
4	Funções. Passagem de parâmetros. Módulos. Utilização do módulo *math*.	Joana Lopes + Rita Pereira	27 Nov
5	Tipos de dados compostos: strings, listas, dicionários, tuplos e conjuntos.	Rita Pereira + Daniela Pereira	4 Dez
6	Operações em ficheiros de texto (leitura + escrita). Armazenamento de dados em formato CSV. Tratamento de exceções.	Ricardo Pereira + Daniela Pereira	11 Dez

import intro_python()

- All materials are given at least 1 day before class
  - Link to a Jupyter Notebook hosted on Google Colab
- Exercises, tutorials and other info will be posted on GitHub and Discord
- Every student has a mentor randomly assigned
  - You will be contacted by your mentor soon (via Discord)

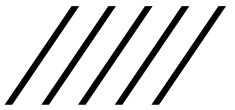

import intro_python()

- If you can’t come to class, please let us know! **Notify your mentor!**
- Certificates are given for a >= 5 sessions attendance
- “Cameras on” is mandatory for attendance
- Engagement system to reward motivated students (gamification-style)

import workshops.next()

- Python for specific domains
  - Data science, machine learning, etc.
  - A more condensed format…
- Web development

import tools()

- Google Colab: https://colab.research.google.com
  - You need to have a Gmail account!
  - That's it! ☺
